

Minutes, Public Works Committee
Meeting Tuesday, December 2, 2008, 9:00 AM
Community Room, 170 University Drive

Attending: Steve Braun, Michael Cann, Rob Crowner (chair), Don George, Charlie Moran;
Guilford Mooring;

Also attending: A number of citizens and abutters including Walter Wolnik, Mohammad Idris, Andrew Jones, Wendy Jones, Sharon Myers, and Barry Sanford.

The Committee and a group of citizens and abutters were given a presentation by Stantec consultants Kevin Maloney and David DuBay titled "University Drive Corridor Improvements." Since their last presentation, the consultants had made relatively minor alterations to the previous set of plans, primarily to address entrance/exit considerations voiced by some property owners at last year's meeting. In light of comments from the previous public hearing and the PWC, and considerations raised internally, the consultants have recommended the "Modified Three-Lane Alternative" plan, with the southern section being done first, the Amity/University intersection being done next, and the middle section to be done last (and, possibly, incorporating further refinements in design).

The meeting adjourned at 10:30.

Respectfully submitted,

Charlie Moran, Sec'y pro tem.
